Featured Therapist Catherine Beauty Therapist

I am passionate about Beauty Therapy. My work is about making you look and feel as good as you possibly can, as I know that is what makes us all feel great about ourselves.

I qualified 13 years ago and still attend regular courses enabling me to keep up to date with the latest products and techniques and offer the best service possible to my clients. I am trained in Dermalogica, Nailtiques, St. Tropez and Universal Contour Wraps and offer a wide range of treatments from nailtiques manicures and pedicures to dermalogica face and body treatments.

My specialist area is giving advice and treating skin problems. I have attended advanced courses at the International Dermal Institute, training to the highest level of their amazing facial treatments including the medicated clearing system for acne prone skin and the Age smart products. I also specialize in wedding and occasion make-up, using the Italian make-up range Royal Effem to create a radiant and beautiful look for that special event.

YOUR GUIDE to instant inch loss

Classic is the scientifically proven inch loss treatment from Universal Contour Whip that guarantees you'll lose at least 6 inches in just 2 hours, making it the perfect solution when you have to look your best for that special occasion.

The 6 inch loss is also guaranteed to stay off for at least 30 days so you can be confident of looking great long after leaving the salon. This may sound too good to be true but with average losses of 10-14 inches from jetone treatment, UCW Classic is the inch loss treatment you can trust.

But Classic doesn't just deliver exceptional inch loss, the unique day formula and special sweeping techniques the therapists use, also tighten and tone your body, while exfoliating and clearing the skin so you will not only look great, you'll feel fabulous too, after just one treatment.
