instyle best beauty buys 2010

Best Facial Exfoliator — Daily Microfoliant®

"There's not an exfoliator around that can knock this one off the top spot. These fine exfoliating grains are so gentle you can use them every day without aggravating the skin."

Best Spot Treatment — Overnight Clearing Gel

"This miracle gel fights spots in your sleep... it inhibits bacteria growth but doesn't dry out or irritate, so even sensitive skins can use it."

Best Moisturiser for Normal to Oily Skin — Active Moist

"Nothing comes close to this velvety, sinks-in-immediately moisturiser... it improves texture and the natural astringents clear oily patches without ever drying the skin."

instyle hall of fame

All three products have already earned their place in the prestigious InStyle Hall of Fame, after winning their title for at least three consecutive years.

look who's using dermalogica!

"I use gallons of Dermalogica and I've been buying it for years." — *David Hays*

"Sunblock is my staple. I can't live without Dermalogica Oil Free Matte Block - it protects skin from the sun and gives a great glow." — *Anne Hathaway*

"[What's your pre-date routine?] I like my products, so I'll have a shower and then I'll whack on a Skin Hydrating Masque by Dermalogica." — *Will Young*

"My biggest revelation has been using Dermalogica PreCleanse, an oil-based cleanser. I was sceptical at first, but it even dissolves stage make-up without leaving any shine." — *Beverley Knight*
